

Personal Recommendation for Martin Harvey from KLC, New Zealand

This is to recommend Martin Harvey to anyone interested in using his services as a translator and / or interpreter in the pair English – Spanish. Martin was here at KLC during a week in July 2006, assisting us in our interaction with Linares technician-Edgard Castro, KLC operators and myself, regarding the service of our Linares finger joint. Martin was most useful during this commission, the success of which was partly due to his accurate rendition of technical situations from one language onto the other. I am therefore pleased to recommend Martin in his language capacity to anyone concerned.

A handwritten signature in black ink, appearing to read 'DL', with a long horizontal stroke extending to the right.
